Subject: Discuss Montanore and Rock Creek mine permits in relation to general variance
Start Date/Time: Tue 6/16/2015 5:00:00 PM
End Date/Time: Tue 6/16/2015 6:00:00 PM

Tommy, could you reserve us a room at DEQ? Maggie, we'll call you.

We'd like to discuss the nutrient limits for these permits, whether the general variance will apply, and anticipated changes to the water treatment systems and permit limits based on projected mine expansions. The primary driver for this meeting is the ESA consultation Tina is doing as part of the EPA's approval of the general variance.
